# INTRODUCTION

## About us

### **Amr Hussein Abudawood General Construction & Maintenance Est.**

Founded in 2014 in Jeddah, AHA. is a leading general contracting and construction company specializing in high-quality, tailored solutions for both interior and exterior spaces.

### **Quality Commitment**

Driven by excellence, A.H.A. consistently delivers results that meet or exceed client expectations. Every project reflects our dedication to superior craftsmanship and attention to detail, including our interior design division.

### **Core Values**

We prioritize client needs and feedback to provide customized solutions while continuously improving our services. Our design philosophy harmonizes natural and modern materials to create functional and aesthetically appealing spaces.

### **Specialized Services**

- Metal & Architectural Works: Custom metal designs, pergolas, steel/aluminum/glass roofing, luxury doors, modern canopies.
- Shading & Interior Systems: Roller shades, sliding curtains, acoustic panels, wallpaper.
- Fire & Smoke Protection: Fixed or electric fire and smoke curtains, maintenance, and after-sales services.
- Cladding & Decorative Finishes: HPL & WPC applications for walls, floors, and pergolas.

# Products used in Projects

Mechoshade is a leading provider of high-quality shading and sun-control solutions. Their products, including motorized and manual roller shades, sliding curtains, and outdoor shading systems, are used to enhance comfort, control light, and improve energy efficiency in both residential and commercial spaces.

At A.H.A., we utilize Mechoshade supplies to deliver customized, functional, and aesthetically pleasing shading solutions that complement our interior and exterior design projects.

# Products used in Projects

Alpha is a trusted provider of premium pergolas, canopies, and outdoor shading systems. Their high-quality products are designed to enhance outdoor living spaces by combining durability, functionality, and modern aesthetics.

At A.H.A., we use Alpha supplies to create customized pergolas, steel and aluminum canopies, and shading solutions that elevate both residential and commercial exterior projects.

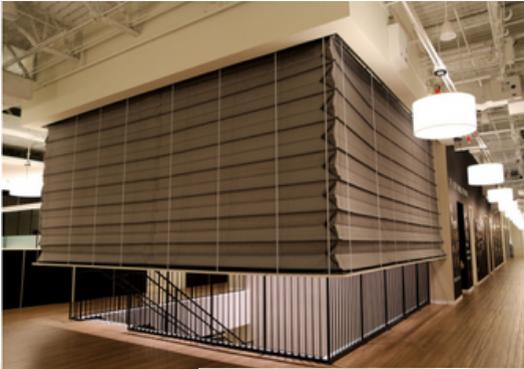

# Products used in Projects

Kent is a leading manufacturer of advanced fire and smoke protection solutions. Their high-quality fire and smoke curtains are designed to enhance building safety by containing fire and smoke, protecting lives, and minimizing property damage.

At A.H.A., we use Kent's products to provide reliable, compliant, and customized fire and smoke protection systems for both residential and commercial projects.

# Products used in Projects

Fabritrak is a leading provider of high-quality shading fabrics and tracking systems. Their durable and versatile products are used to create smooth, functional, and visually appealing roller shades, curtains, and shading solutions.

At A.H.A., we use Fabritrak supplies to deliver precise, customized, and long-lasting shading systems for both residential and commercial projects.

# Products used in Projects

Codina is a renowned provider of premium decorative finishes and cladding solutions. Their high-quality HPL and WPC products are used to enhance both interior and exterior surfaces with durability, elegance, and modern design.

At A.H.A., we utilize Codina supplies to deliver customized wall, floor, and pergola finishes that elevate the aesthetics and value of our clients' spaces.

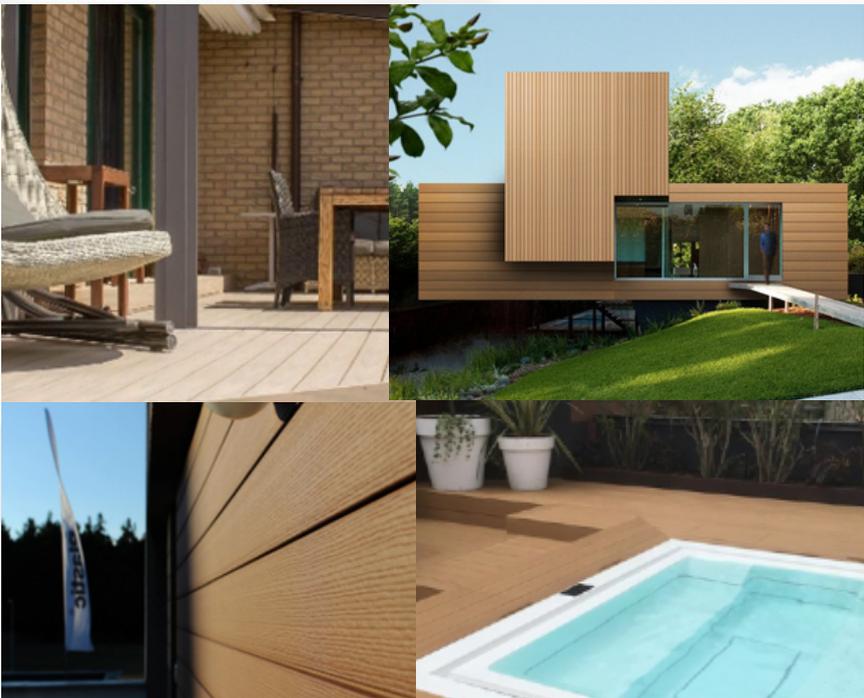

# Products used in Projects

Novowood is a leading provider of innovative WPC (Wood Plastic Composite) solutions for outdoor and indoor applications. Their products combine the natural look of wood with the durability of modern composites, offering sustainable, low-maintenance, and long-lasting finishes.

At A.H.A., we use Novowood supplies for pergolas, decking, cladding, and decorative elements that bring both elegance and resilience to our projects.

# Products used in Projects

Proal is a trusted manufacturer of high-quality aluminum and glass systems. Their products, including doors, windows, facades, and structural glazing solutions, combine strength, durability, and modern design.

At A.H.A., we use Proal supplies to deliver sleek, customized, and reliable architectural solutions that enhance both the functionality and aesthetics of residential and commercial projects.

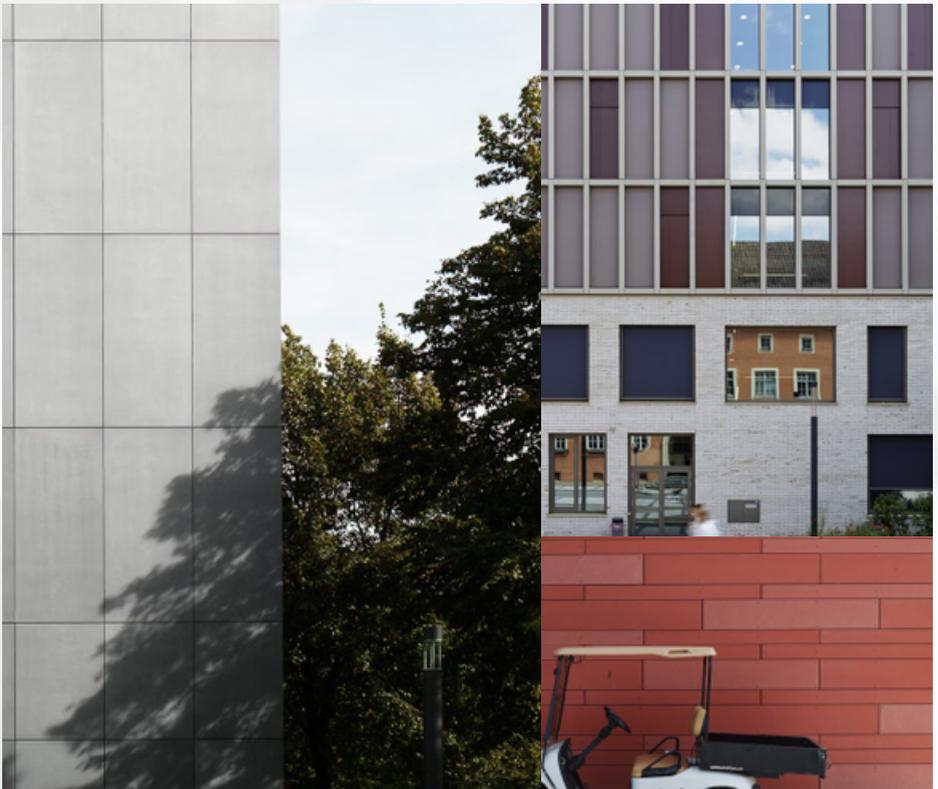

# Products used in Projects

## Rieder

Rieder Facades is a renowned provider of premium exterior cladding and facade solutions. Their high-quality materials are designed to enhance building aesthetics, durability, and energy efficiency.

At A.H.A., we use Rieder Facades supplies to deliver customized, modern, and long-lasting facade and cladding solutions for both residential and commercial projects.

# Products used in Projects

**CLIPSO®**  
so different

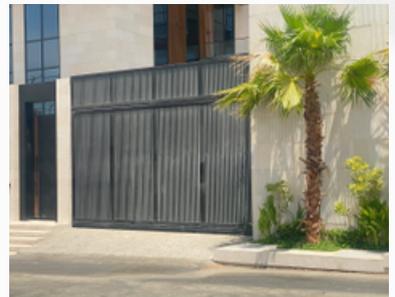

Clipso is a global leader in stretch ceiling and wall covering solutions. Their innovative fabrics combine durability, acoustics, and design flexibility, making them ideal for modern interiors.

At A.H.A., we use Clipso products to create seamless, stylish, and functional ceiling and wall finishes that enhance both the aesthetics and performance of interior spaces.

# Metal Projects

We professionally execute ironworks and metal decorations, including doors, windows, structural elements, shading systems, and exterior finishes. Using materials such as iron, HPL, and WPC, we ensure durable and elegant results in every project.

# How we used the Products

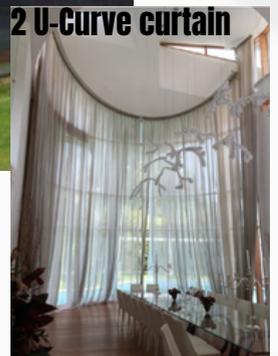

In project 1, we used our expertise in metal and the pergola from Alpha

In the first project, we combined Mechoshade's product with our metal work expertise

In the second we did a very difficult U-curved curtain with the use of Mechoshade products.

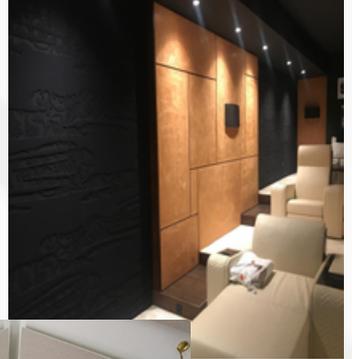

# How we used the Products

We used Kent's fire and smoke curtains in our projects as shown

In these two projects, FabriTrak's acoustic panels were used.

# How we used the Products

**CLIPSO**<sup>®</sup>  
so different

Stretch Ceiling project

We specialize in making parking and skylight shades

**PROAL**

Proal products such as curtains, wallpapers, and HPL were used in project 2.

# How we used the Products

In this project, we used Novowood's WPC around the pool instead of tiles
